

- Lecture 1 - Introduction to econometrics and econometric analysis - Part 1
- Lecture 2 - Introduction to econometrics and econometric analysis - Part 2
- Lecture 3 - Different steps in econometric analysis - Part 1
- Lecture 4 - Different steps in econometric analysis - Part 2
- Lecture 5 - Desirable properties of the estimates of the population parameters - Part 1
- Lecture 6 - Desirable properties of the estimates of the population parameters - Part 2
- Lecture 7 - Classical Linear Regression Model - Part 1
- Lecture 8 - Classical Linear Regression Model - Part 2
- Lecture 9 - Classical Linear Regression Model - Part 3
- Lecture 10 - Classical Linear Regression Model - Part 4
- Lecture 11 - Classical Linear Regression Model - Part 5
- Lecture 12 - Goodness of fit measure, Anova and hypothesis testing - Part 1
- Lecture 13 - Goodness of fit measure, Anova and hypothesis testing - Part 2
- Lecture 14 - Goodness of fit measure, Anova and hypothesis testing - Part 3
- Lecture 15 - Goodness of fit measure, Anova and hypothesis testing - Part 4
- Lecture 16 - Goodness of fit measure, Anova and hypothesis testing - Part 5
- Lecture 17 - Application of STATA for hypothesis testing and introduction to multiple linear regression model - Part 1
- Lecture 18 - Application of STATA for hypothesis testing and introduction to multiple linear regression model - Part 2
- Lecture 19 - Application of STATA for hypothesis testing and introduction to multiple linear regression model - Part 3
- Lecture 20 - Application of STATA for hypothesis testing and introduction to multiple linear regression model - Part 4
- Lecture 21 - Application of STATA for hypothesis testing and introduction to multiple linear regression model - Part 5
- Lecture 22 - Multiple linear regression model and application of F statistics - Part 1
- Lecture 23 - Multiple linear regression model and application of F statistics - Part 2
- Lecture 24 - Multiple linear regression model and application of F statistics - Part 3
- Lecture 25 - Multiple linear regression model and application of F statistics - Part 4
- Lecture 26 - Multiple linear regression model and application of F statistics - Part 5
- Lecture 27 - Multiple linear regression model and application of F statistics - Part 6
- Lecture 28 - Structural break analysis using Chow test - Part 1
- Lecture 29 - Structural break analysis using Chow test - Part 2
- Lecture 30 - Structural break analysis using Chow test - Part 3
- Lecture 31 - Structural break analysis using Chow test - Part 4

[Lecture 32 - Structural break analysis using Chow test - Part 5](#)

[Lecture 33 - Dummy Variable analysis and Application of Difference-inDifference for impact evaluation - Part 1](#)

[Lecture 34 - Dummy Variable analysis and Application of Difference-inDifference for impact evaluation - Part 2](#)

[Lecture 35 - Dummy Variable analysis and Application of Difference-inDifference for impact evaluation - Part 3](#)

[Lecture 36 - Dummy Variable analysis and Application of Difference-inDifference for impact evaluation - Part 4](#)

[Lecture 37 - Dummy Variable analysis and Application of Difference-inDifference for impact evaluation - Part 5](#)

[Lecture 38 - Statistical analysis of Dummy Variable models and Testing for seasonal fluctuations - Part 1](#)

[Lecture 39 - Statistical analysis of Dummy Variable models and Testing for seasonal fluctuations - Part 2](#)

[Lecture 40 - Statistical analysis of Dummy Variable models and Testing for seasonal fluctuations - Part 3](#)

[Lecture 41 - Statistical analysis of Dummy Variable models and Testing for seasonal fluctuations - Part 4](#)

[Lecture 42 - Statistical analysis of Dummy Variable models and Testing for seasonal fluctuations - Part 5](#)

[Lecture 43 - Statistical analysis of Dummy Variable models and Testing for seasonal fluctuations - Part 6](#)

[Lecture 44 - Relaxing the assumptions of CLRM - Multicollinearity and Autocorrelation - Part 1](#)

[Lecture 45 - Relaxing the assumptions of CLRM - Multicollinearity and Autocorrelation - Part 2](#)

[Lecture 46 - Relaxing the assumptions of CLRM - Multicollinearity and Autocorrelation - Part 3](#)

[Lecture 47 - Relaxing the assumptions of CLRM - Multicollinearity and Autocorrelation - Part 4](#)

[Lecture 48 - Relaxing the assumptions of CLRM - Multicollinearity and Autocorrelation - Part 5](#)

[Lecture 49 - Relaxing the assumptions of CLRM - Multicollinearity and Autocorrelation - Part 6](#)

[Lecture 50 - Relaxing the assumptions of CLRM - Autocorrelation and Heteroscedasticity - Part 1](#)

[Lecture 51 - Relaxing the assumptions of CLRM - Autocorrelation and Heteroscedasticity - Part 2](#)

[Lecture 52 - Relaxing the assumptions of CLRM - Autocorrelation and Heteroscedasticity - Part 3](#)

[Lecture 53 - Relaxing the assumptions of CLRM - Autocorrelation and Heteroscedasticity - Part 4](#)

[Lecture 54 - Relaxing the assumptions of CLRM - Autocorrelation and Heteroscedasticity - Part 5](#)

[Lecture 55 - Relaxing the assumptions of CLRM - Autocorrelation and Heteroscedasticity - Part 6](#)

[Lecture 56 - Qualitative Response Models - Linear Probability Model, Logit and Probit Models - Part 1](#)

[Lecture 57 - Qualitative Response Models - Linear Probability Model, Logit and Probit Models - Part 2](#)

[Lecture 58 - Qualitative Response Models - Linear Probability Model, Logit and Probit Models - Part 3](#)

[Lecture 59 - Qualitative Response Models - Linear Probability Model, Logit and Probit Models - Part 4](#)

[Lecture 60 - Qualitative Response Models - Linear Probability Model, Logit and Probit Models - Part 5](#)

[Lecture 61 - Qualitative Response Models - Probit and Tobit Models - Part 1](#)

[Lecture 62 - Qualitative Response Models - Probit and Tobit Models - Part 2](#)

[Lecture 63 - Qualitative Response Models - Probit and Tobit Models - Part 3](#)

[Lecture 64 - Qualitative Response Models - Probit and Tobit Models - Part 4](#)
